

Appendix A Third Party Reporting Tools

Reporting tools like Oracle Discoverer and Cognos ReportNet use reporting meta data to define the relationships between reporting views in the ODS. SunGard SCT has developed reporting meta data for Oracle Discoverer and Cognos ReportNet. The sections below document the meta data that is delivered as part of the ODS.

Oracle Discoverer End User Layer

In Discoverer, the reporting meta data is called the End User Layer (EUL). The chart below identifies which joins are set up in the end user layer of Oracle Discoverer. The **First Reporting View->Second Reporting View** column lists the reporting views. The **Columns being Joined** column lists the columns that are being joined between the reporting views.

First Reporting View -> Second Reporting View

Academic_Outcome -> Activity on Person_Uid

Academic_Outcome -> Finaid_Applicant_Status on Person

Academic_Outcome -> Outcome_Departmental_Honor on Person / Degree / Outcome

Academic_Outcome -> Outcome_Honor on Person / Degree / Outcome

Academic_Outcome -> Outcome_Institutional_Honor on Person / Degree / Outcome

Academic_Outcome -> Person on Person_Uid

Columns being Joined

Join between Academic_Outcome.Person Uid and Activity.Entity_Uid

Join between Academic_Outcome.Person Uid and Finaid_Applicant_Status.Person Uid

Join between Academic_Outcome.Person Uid and Outcome_Departmental_Honor.Person_Uid

Join between Outcome_Honor.Person and Academic_Outcome.Person

Join between Academic_Outcome.Person Uid and Outcome_Institutional_Honor.Person_Uid

Join between Person.Person and Academic_Outcome.Person

First Reporting View -> Second Reporting View

Academic_Outcome_Slot -> Person on Person
 Academic_Study -> Advisor on Person / Academic_Period
 Academic_Study -> Gpa on Person_Uid / Academic_Period
 Academic_Study -> Gpa_By_Level on Person_Uid / Academic_Period / Level
 Academic_Study -> Gpa_By_Term on Person_Uid / Academic_Period
 Academic_Study -> Meal_Assignment on Person / Academic_Period
 Academic_Study -> Person on Person_Uid
 Academic_Study -> Phone_Assignment on Person / Academic_Period
 Academic_Study -> Room_Assignment on Person / Academic_Period
 Academic_Study -> Student on Person_Uid / Academic_Period_Start
 Account_Hierarchy -> Account_Attributes on Chart_Of_Accounts / Account
 Account_Hierarchy -> Account_Type_Attributes on Chart_Of_Accounts / Account_Type
